

ASN SENIOR SECONDARY SCHOOL

**MAYUR VIHAR - I
HOLIDAY ACTIVITIES & PROJECTS
CLASS III**

Dear Students

It was great to have you back to school in the new academic session. It was an absolute delight to see your cheerful faces every morning, watch you learn new things every day, harness new bonds and be your natural self.

Like every year, it's time for the refreshing and rejuvenating summer break for which you all look forward to. Along with the dose of fun and frolic during this break, it's important to keep yourself engaged in activities which provide you opportunities to expand your horizons beyond the realms of books and indulge in creative and innovative pursuits.

Keeping this in mind, we have designed interesting and informative activities and projects under the themes - intellectual development, physical development, social-emotional development and spiritual development.

We expect you to complete the assigned activities on your own however, you may approach your parents and teachers for help.

We look forward to fascinating pieces of work from our curious learners!

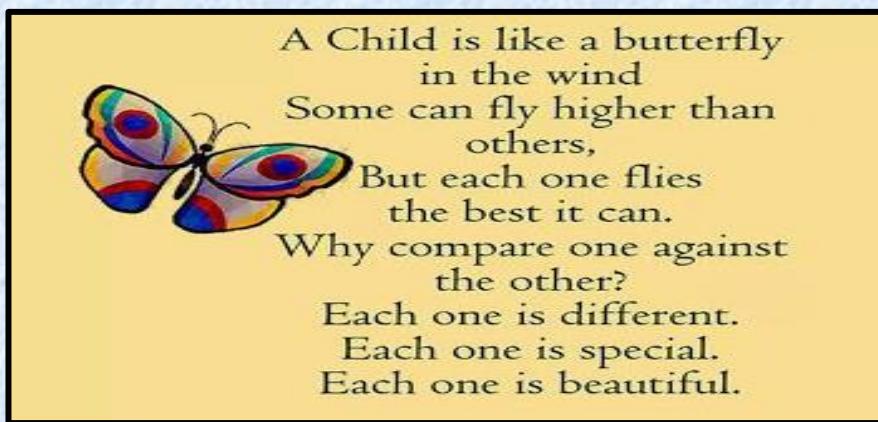

Wishing you all happy, fun-filled and enriching holidays!

Madhvi Kedia
Incharge

General Instructions

- **Activities I to IV are compulsory for all.** Out of the rest of the activities each student is expected to do **two activities assigned to them by the class teacher.**
- Follow the instructions given carefully with each activity.
- You can take help of the internet, newspapers, magazines, encyclopaedia to collect information and pictures.
- Label your work appropriately related to the activity in your presentation.
- Make your work presentable and attractive for display.
- Submit your work on the date given to you on the reopening of the school after summer vacation.
- Prepare yourself for the presentation in which you are expected to speak about your activity, new things learnt and the change it brought about in you.
- English Handwriting – Write till page 15.
- Watch interesting English movies for children for language enrichment.
- Bikhre Moti (Hindi Handwriting) – Do pages 16 to 24.
- Make one thin copy and practice at least ten sums weekly (including word problems) taking one topic for two weeks from the topics given below:
 - Addition, Subtraction, Multiplication and Division
 - Revise Tables from 2 to 15
 - Playing games whether physical or mental is so much fun. This vacation, gear yourself up to play your favourite games with your friends and family for enjoyment and learning.

ACTIVITY I- HUNAR HAAT

Each one of you is blessed with an innate talent and has unlimited potential to unfold. You just need to identify, practice and nurture the same. You may be good at art, music, singing, pottery, playing games, gardening, writing, composing and so on. Identify your talent and create your own unique masterpieces which can be displayed in Hunar Haat. For example, you can create your video, photo album, some articles for display or use any other innovative way to showcase your talent.

ACTIVITY II - THE ULTIMATE READS - It is said, “A book is a magical thing that lets you travel to faraway places without ever leaving your chair”. The students must make it a habit of reading them during summer vacation.

The more the merrier! Read as many books (in English/Hindi/Mother Tongue) as you can to enrich your vocabulary and understanding. Make a list of the name of the book and author on an A4 size pastel sheet to boast of your long list. Read the following books ‘How I Taught my Grandmother to Read’ by Sudha Murthy and ‘Best Friends Forever’ by Arti Sonthalia for ‘Book Review’ activity after the summer break.

ACTIVITY III LITTLE YOGIS - Learn any 6 yoga postures which help in increasing your height, built, stamina and improve concentration. Practise these asanas every day to keep yourself fit. Click pictures/video of yours performing these yoga asanas. Share your video as per the instructions of your class teacher.

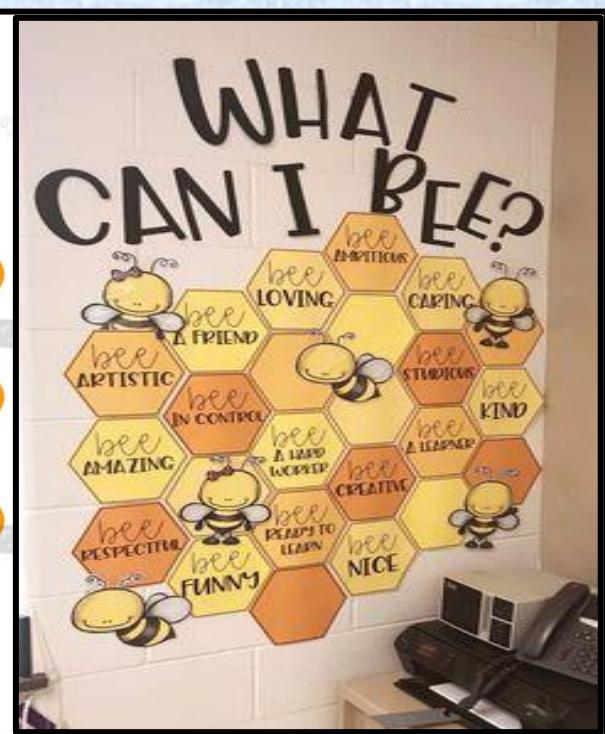

ACTIVITY IV - EXPRESS TO MAKE A DIFFERENCE! – Imagine yourself as the eco-ambassador of your school and you have to deliver a speech in your school assembly. Prepare a video expressing your thoughts and views on any one of the UN SDGs.

V) MY GAMES CORNER – Create any one of the games given below (or choose your own) using eco-friendly material easily available at home.

VI) I CAN BEE..... Each one of us is born unique and blessed with unmatchable qualities like being confident, caring, helpful and many more. Take some time out during this summer break and think of some other qualities you would like to develop.

Use half cartridge sheet (any colour) to design your ‘BEE... FRAME’ that will help you to remind you of the qualities you wish to develop and work towards achieving them.

VII) BOOKFLIX FOR BEST READS – Reading is simply magical as it makes you step into different characters and visit places that you've never been before.

Recall one of the many books you've read that you found the most amazing and you want to share that pleasure with your friends as well. Then, use an old card (birthday/wedding) to design the book cover of that book and write 5 sentences describing what that book is about to excite your friends to read that book,

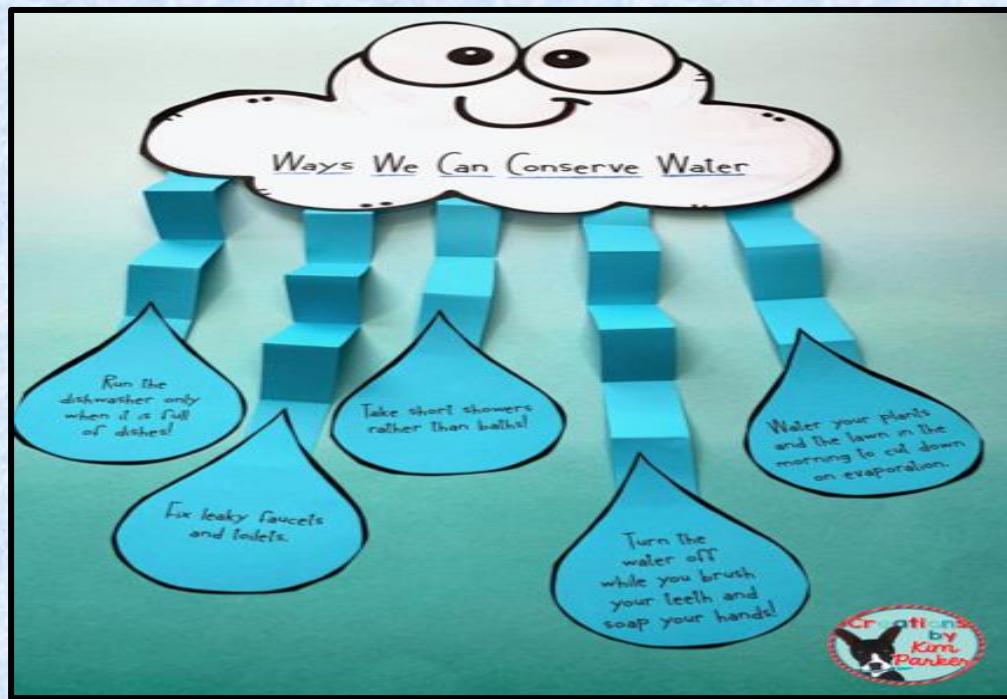

VIII) MY GRATITUDE FOR ALL – Being grateful, is a quality each one of us should possess. We must acknowledge, appreciate and express our gratitude for the things which we are blessed with and for the kind gestures of people who help us in our daily lives.

Use ten A4 size pastel sheets of different colours to cut out impressions of your hand. Write a sentence or two expressing your gratitude for people and things around us and create a GRATITUDE TREE as shown in the image below.

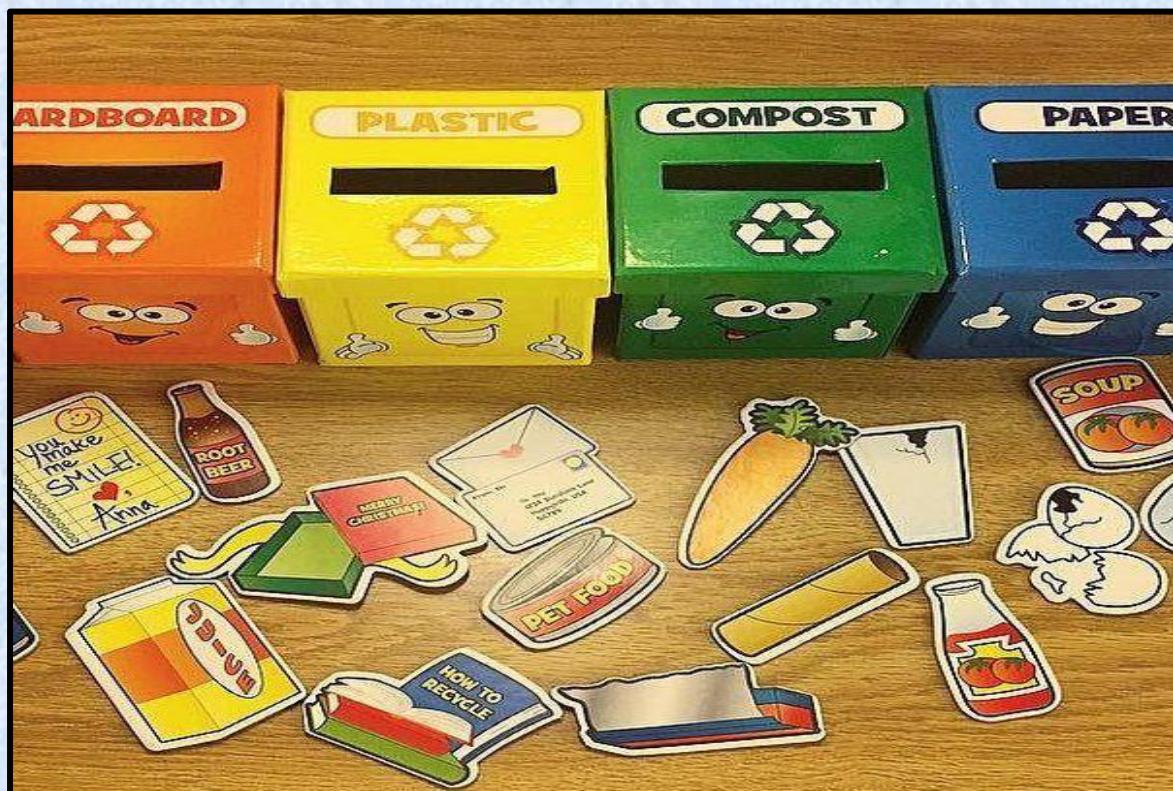

IX) THE PRECIOUS DROP – Water is our life and our very existence depends on it. Therefore, saving each drop is the collective responsibility of all of us. We all must do our bit to conserve water and avoid its wastage.

Pen down five ways by which you save water at home/school and make a WATER HANGING as shown below.

X) SEGREGATE THE WASTE - Search about the different coloured dustbins used for waste and create a SORTING GAME as shown below.

XI) HANDPRINT & FOOTPRINT FOR A BETTER WORLD – There is no planet B so, we have to take care of the one we have. Our small acts of compassion towards our Mother Earth will help it to become greener and cleaner.

The steps which we take for making our Mother Earth clean and green come under our **HANDPRINT IMPRESSION** like growing plants, using paper/cotton bags etc., whereas our actions that have a negative impact like use of vehicles for short distances come under our **FOOTPRINT IMPRESSION**.

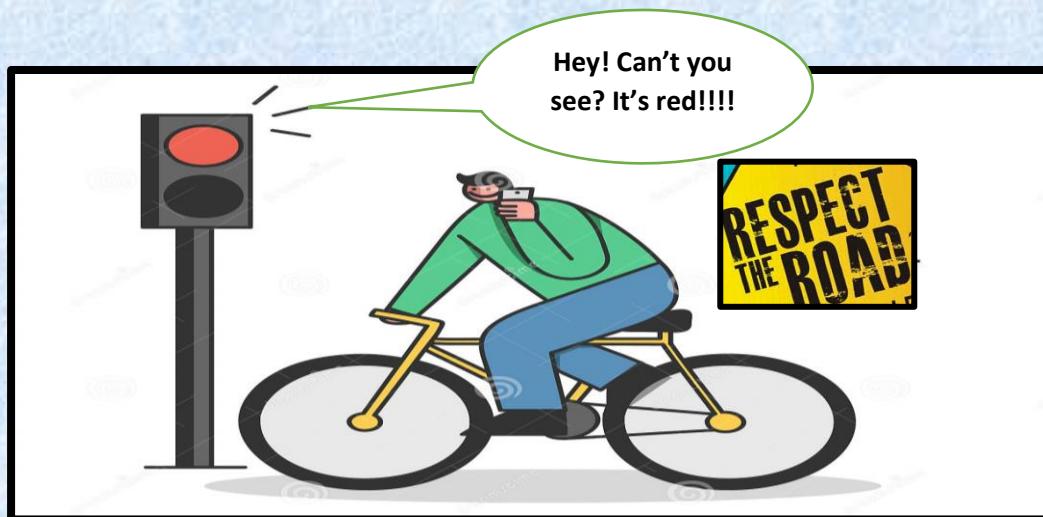

Trace your hands and feet on a drawing sheet and write positive actions(two) one on each HANPRINT and negative actions(two) one on each FOOTPRINT. Create an image as shown below or use your own creativity for display.

XII) SAFETY MATTERS - Our safety is of prime importance for us whether we are at home/school/public places. Safety on road is one such area, which at times we see people ignoring. Creating awareness is the first step to ensure everyone's safety.

Put on your thinking caps and imagine what would the Road Safety signs say to the people who do not follow the rules on the road. For example- What would the traffic signal say to the person who is riding through at red light.

Design a handout on an A4 size pastel sheet, illustrating such speech remarks in speech bubbles. Also, create your own suitable quote on Road Safety.

XIII) THEN & NOW – We all love to spend time with our grandparents but have you ever wondered how their lives were different from ours? Here is an opportunity to talk and find out more from your grandparents or any other elderly person you know and design a lapbook. You can take help from the image attached for your reference.

Talk to your grandparents about the various things which worked during their time and discuss how it works now.

Design a colourful lapbook.

You can choose any five of the examples given below –

1. Schools
2. Markets
3. Television
4. Games
5. Means of communication
6. Music

XIV) HAPPINESS HUNT – At the end of the day, it is important to be happy. Make your happiness wind chime using cardboard and strings. Paste pictures to answer the questions given below on each piece of cardboard.

QUESTIONS

- Find something that makes you happy.
- Something you give someone else to make them smile.
- Find something you enjoy looking at.
- Find something for which you are thankful to nature.
- Find something that you love to smell.

Add a suitable caption along with each picture reflecting your joy.

XV) BE A WRITER! – “It is said, “If you wish to be a writer, write.” Think of a topic which interests you the most and write a short story in Hindi/English. Use A4 size coloured pastel sheets to write and illustrate using colourful pictures. Put dialogues in speech bubbles where necessary. Make an attractive cover page for your story.

XVI) THE CYNOSURES OF INDIA – The year 2022 marks 75 years of India’s independence. 28 states of India are well known for their unique culture, monuments, food, people, music, dance etc. Choose any one state which you would like your friends to visit and gather pictures about what is it famous for.

Take an old box (cube-shaped) of medium size. Cover or colour it with different shades as shown and then paste or draw pictures on each side and also label them. For example – If you choose Punjab and paste the picture of people doing bhangra, then write ‘**FOLK DANCE – BHANGRA**’ under it.

‘FOLK DANCE – BHANGRA’
